Layer 2 — Error Level Analysis (ELA)

ELA Score: 0.0043

Suspicion Flag: NO — No Strong Indicators

Interpretation:

Layer 3 — SHA-256 Hash Integrity Verification

Match Status: NO_MATCH

Matched Institution: N/A

Interpretation:

Overall Risk Assessment

Risk Score: 70 / 100

VERDICT: LIKELY FORGED

Recommended Action:

DISCLAIMER

This certificate is produced by SecureScan, an automated forensic screening tool developed at the University of Bamenda College of Technology. The findings constitute prima facie forensic evidence and do not represent a definitive legal determination. Human

review of all flagged documents is required before any institutional action is taken.
